

WESTLEC Series Terminals

» *Always for your safety*

**WENZHOU ETEK
IMPORT & EXPORT CO.,LTD.**

COMPANY INTRODUCTION

WESTLEC is a professional exporter of low-voltage electrical products and accessories headquartered in Wenzhou, Zhejiang, China. We specialize in manufacturing and supplying terminal blocks, connectors, busbars, DIN rails and related components, which are widely applied in industrial automation, power distribution systems, electrical engineering and building electrical installations.

With a robust domestic supply chain network, we have established long-term partnerships with qualified manufacturers to ensure product consistency and reliability. Our products strictly comply with international standards including EN, IEC etc., while offering flexible customization options to meet specific project requirements. Backed by over 10 years of industry expertise, WESTLEC provides comprehensive solutions encompassing product selection, technical consultation, and efficient logistics support to global clients.

Looking ahead, WESTLEC remains committed to continuous product innovation and service enhancement. By integrating advanced technologies and sustainable practices, we aim to deliver smarter electrical connection solutions that drive efficiency and environmental responsibility across global markets. Our vision is to become a trusted partner for electrical professionals worldwide, contributing to safer and more intelligent power distribution systems.

One Hole Offset Floating Tongue Lugs

High copper alloy terminal with offset tongue for joining a wide range of cable to equipment pads or bar. easy to install with screwdriver or wrench. connector is re-usable. plain copper finish.

Features	Benefits
Convenient range-taking design.	Reduces catalog number. One connector accommodates several conductor sizes.
High conductivity copper alloy.	Long lasting reliable contact.
Compact design.	Easy to use, Reduces labor time.
Slot Robertson screw, hex head/hex socket bolt.	No special installation tools required. Eliminates over-torquing/potential conductor damage.

Terminals Blocks

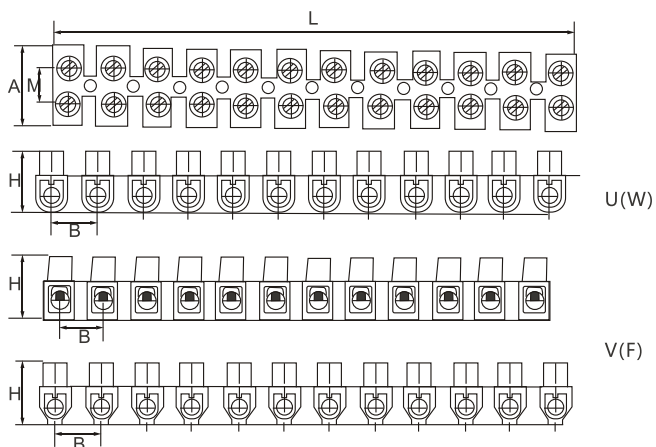

Terminals Blocks H,Y(W),V(F) Type Material:made from PA,PE or PP.

Application

H.FW. Series terminal connectors are used in the circuits of AC.50Hz or 60Hz voltage up to 660V or DC.Volitage 150A,for conn-ecting the round copper conductors.
